

PRAYER PADDLE FOR PATTERSON LAKE (Horáchághı tuë) June 10 -14 +, 2017

Beautiful Patterson Lake, Saskatchewan, a lake that has long fed the Denesuline people from its clean waters, has been targeted by uranium companies. They plan to drain half of this lake and make it into an open pit uranium mine within a few short years.

We must take our prayers to the water. Everyone is welcome to join us to protect Patterson Lake from becoming another radioactive toxic sacrifice zone. Bring your canoes, kayaks, camping gear, food and prayer bundles.
